

## An Andrew Crozier Reader

Andrew Crozier (1943-2008) was a poet, and an energiser of poetry. A champion of work excluded from the familiar canon, he brought to the English literary landscape of the 1960s and 70s an engagement with the energies of American poetry. As a publisher and critic he helped to create a space for new voices within English poetry: for George Oppen, Carl Rakosi, Roy Fisher, J.H. Prynne. His own poetry is meticulous in its attention to language, exhilarating in its inventiveness and force. Crozier wrote that, for him, becoming a poet had to do with finding a mode for making sense of ... being alive, and his writing is alive with the possibilities of language. Ian Brinton, editor of *The Use of English* until 2011 and author of *Contemporary Poetry Since 1990*, has brought together a comprehensive selection of Crozier's poetry and prose, much of it previously out of print or scattered in small press publications. Biographical and critical notes and a detailed bibliography complete this landmark edition of one of the essential figures in modern poetry.
